

KNEE ON TRAC

WHAT IS IT?

The KNEE ON TRAC system is a non-invasive knee pain therapy that offers a revolutionary solution for those that live with chronic knee pain. The KNEE ON TRAC isolates the knee and offers safe and effective mechanical traction to decrease pain by:

- ✓ DECREASING INFLAMMATION
- ✓ ALLOWING RE-HYDRATION
- ✓ INCREASING RANGE OF MOTION
- ✓ SPEEDING UP THE HEALING PROCESS

BENEFITS PEOPLE SUFFERING FROM:

Pain Management	PCL tear
Pain Reduction	Post Surgical Rehab
Pain Elimination	Total Knee Replacement
Sprain Strain	Bakers Cyst
Meniscal tear	Synovial Production
ACL tear	Cartilage Regeneration

01

PATH TO SUCCESS

The knee on trac can help you get back to the things that are important to you. That means family, friends, children, grandchildren, shopping, hobbies, bicycling, golf...

02

MECHANICAL TRACTION

Studies show that mechanical traction was more effective in decreasing pain and improving quality of life than using conventional methods alone.

03

IMPROVEMENTS

Studies also investigated the reduction of symptoms after mechanical traction along with conventional therapy. The results were shown to have significant improvement!
